## List of courses

|                                                              | Nature | CM  | TD  | TP  | Crédits |
|--------------------------------------------------------------|--------|-----|-----|-----|---------|
| Sensors, principles and use                                  | UE     | 10h | 4h  | 16h |         |
| Continuous media dynamics                                    | UE     | 12h | 8h  | 10h |         |
| Finance: introduction to economic and mathematical modelling | UE     |     |     |     |         |
| Artificial Intelligence and Games                            | Module | 14h | 16h |     |         |
| Semi-Conductive Materials, Properties and Applications       | UE     | 24h | 6h  |     |         |
| Microcontrollers and their environment                       | UE     | 14h | 8h  | 8h  |         |
| Economic philosophy and the anthropocene                     | UE     | 6h  | 10h | 1h  |         |
| Object programming                                           | Module | 4h  | 8h  | 18h |         |
| RIS (Rechercher, Identifier, Séparer)                        | UE     | 2h  |     | 28h |         |
| Physics of complex phenomena                                 | UE     | 14h |     | 16h |         |
| Solid chain operations                                       | UE     |     |     |     |         |
