

Train'ing Week S8

ECTS credits
1 credits

In brief

➤ **Course language:** French, English

Presentation

Learning objectives

The Train'ing is a place dedicated to the integration of the skills of Centralien engineers, based on three main areas: scientific integration, societal and cultural openness, and professional skills.

The main objectives of the Train'ing include

Understand the different types of leadership.

Understand the challenges of team management.

To become aware of societal issues and scientific challenges.

Capitalize on professional immersion
