Presentation

Learning objectives

Discover a company, its ecosystem, its constraints and its functioning.

Description of the programme

The 1A internship is an internship to discover the company. It should allow the student to come into contact with the business world through execution tasks, without being invested with any authority. It is an opportunity for the student to enrich his or her professional experience, to develop his or her thinking, and to become aware of the socio-economic constraints to which the company is subject.

Generic central skills and knowledge targeted in the discipline

The 1A internship is an opportunity for the student to enrich his or her professional experience, to develop his or her thinking, and to become aware of the socio-economic constraints to which the company is subject.

How knowledge is tested

Evaluation based on an internship report corrected by a teacher from the school and an evaluation form from the company.
